Thanks for the info, Nancy. FYI, I had Valois's name included on the PWS due to her project lead status - she is not a COR (though she used to be). We can have her name removed if only CORs are allowed as work assignment contacts on the PWS.

Bruce

The CO won't sign the COR appt memo until she approves the package and issues the WA. The CO is Angela Lower. She may require Valois to have a COR nom form as well because she is listed on the PWS as a tech expert. I will let you know that when Angela gets back to me on her review after we get the full package to her...

Hi Nancy,

Once the PWS was approved we submitted the two QA forms to our Regional QA Director. I will send them to you as soon as they are signed.

I noticed both the "COR nomination" and the "COR appointment memo" were not signed by the CO - do we need the CO's signature on these two? Also, please confirm the contract's CO.

Valois is indeed our Dewey-Burdock project's lead and technical expert. She is listed as such on our PWS. Is that satisfactory?

As always, thanks for your assistance.
